9. With reference to the NIS publications listed in 4, above, what are the major shortcomings you have found in the NIS? (Please relate these to your own needs, considering adequacy of coverage, reliability of content, currency, length and detail of presentation, and security classification.)

No major shortcomings in relation to NIS use in our present assignment (perhaps this is because of my long association with NIS program). excellent General Survey coverage is most helpful and from my observation has increased the use of the NIS.

(answer may be continued on the reverse)

10. What specific suggestions can you make for improving the content (including graphics), coverage, organization, and format of NIS units?

At this point in the role of intelligence in DOD the single most important contribution the NIS Committee can make is to promote in every way possible the use of the NIS and promulgate the significance of continued basic intelligence production. This is particularly critical at this time of cost escalation and increasing
